A close-up photograph of a golden wheat field. The wheat stalks are in sharp focus in the foreground, with their heads of grain clearly visible. The background is a soft, out-of-focus expanse of more wheat, bathed in the warm, golden light of a low sun. The sun itself is a bright, glowing orb in the upper right corner, creating a lens flare effect and casting a warm, golden glow over the entire scene. The overall mood is one of abundance and the end of a growing season.
